The glareshield panel, commonly referred to as the MCP, contains not only the Mode Control Panel, but also the master caution lights & annunciations, fire warning lights and, on the NG's, the EFIS control panels. Whilst the MCP has evolved with the autopilot, the master caution and fire warning lights have remained unchanged through to the present day which is testimony to its good initial design.

The Boeing Uninterruptible Autopilot is a system designed to take control of a commercial aircraft away from the pilot or flight crew in the event of a hijacking. If implemented, the system would allow the craft to automatically guide itself to a landing at a designated airstrip. The "uninterruptible" autopilot would be activated either by pilots, by onboard sensors, or remotely via radio or ...
