Overview. This amazing, revealing handbook contains all anyone will ever need to know about reading body language. With it, you can become a veritable human lie detector, spotting exactly when people are telling the truth, when they are lying, and even how they are feeling. What can you tell by folded arms, by the distance away someone stands when talking to you, from facial expressions, or from blinking eyes?

Voluntary body language would include things like the way someone stands, folds their arms, or smiles. Involuntary body language is a little more complex, as it includes such things as blood rushing to the face when someone is embarrassed. This involuntary form of body language often covers facial expressions that someone does not deliberately make.
