developments. A search was conducted of CAA-related literature from the last...

(PDF) A review of computer-assisted assessment

More contentious than using computers to deliver content and support student learning is computer-assisted assessment (CAA). CAA can include a range of activities such as, the collation, analysis and transmission of examination grades across networks and, most desirably, the use of computer-based assessment, where students complete assessments at workstations and their answers are automatically marked.

Computer assisted assessment : research into e- assessment ...

Computer-aided assessment can be viewed in a few different ways. Technically, assignments that are written on a computer and researched online are computer-aided assessments. One of the most common forms of computer-aided assessment (in terms of e-learning) is online quizzes or exams. These can be implemented online, and also marked by the computer by putting the answers in.
