Why You Learn More Effectively by Writing Than by Typing

a blog by Jeff Atwood on programming and human factors. 18 Sep 2006 When Understanding means Rewriting. If you ask a software developer what they spend their time doing, they'll tell you that they spend most of their time writing code.. However, if you actually observe what software developers spend their time doing, you'll find that they spend most of their time trying to understand code:

When Understanding means Rewriting

By doing so, you don't waste time writing a computer program that doesn't work or that solves the wrong problem and isn't worth trying to salvage afterward. With planning, you increase the odds that your computer program actually works and performs the task that you want.
