In geometry, if you're given a right triangle with missing angles or sides, you can use trigonometric ratios—sine, cosine, or tangent—to find them. To help you decide which of the three trigonometric ratios to use, you can label the sides of the triangle as adjacent or opposite. This labeling is dependent on the given angle [...]

The only corny HW sheets I've seen ask some silly question and you do the various math problems -- which eventually gives you the solution -- each problem giving you one letter until the answer is spelled out. If this is what you have -- can you scan it and email it to me? I'd be happy to help if you can scan and send it to me.
