than 744 million people in 50 different countries. Formation of the European Union (EU) and in 1999, the introduction of a unified currency – the euro brings participating European countries closer through the convenience of a shared currency and has led to a stronger European cash flow.

Economy of Europe - Wikipedia

It has become almost uncontroversial that integration has produced winners and losers, with an increasing share of the gains going to highly skilled individuals or those who own capital. Yet the potential role of sectoral differences has not yet been fully explored. For example, integration may have disproportionately benefited the financial sector and disproportionately hurt manufacturing ...
