"plain geometric forms". Today, we are so accustomed to the modern aesthetic (in everything from household appliances to skyscrapers) that it can be difficult to imagine the controversy surrounding its development.

Modern Architecture | Essential Humanities

Modern architecture, or

Get Free The Elements Of

Modernist architecture, was an architectural style based upon new and innovative technologies of construction, particularly the use of glass, steel, and reinforced concrete; the idea that form should follow function (functionalism); an embrace of minimalism; and a rejection of ornament. It emerged in the first half of the 20th century
