Open Court: The Philosophy of Jaakko Hintikka

Jaako Hintikka was a Professor of Philosophy at Boston University. He was known as the main architect of game-theoretical semantics and of the interrogative approach to inquiry and also as one of the architects of distributive normal forms, possible-worlds semantics, tree methods, infinitely deep logics, and the present-day theory of inductive generalization.

Jaakko J. Hintikka | Britannica

Hintikka has often been considered to have continued the tradition of analytic philosophy, much like Georg Henrik von Wright, his mentor, Bertrand Russell and Ludwig Wittgenstein. Hintikka, however, does not share this view. "My approach has never been just analytic," Hintikka said.

A Philosophical Polymath - 375 Humanists

Jaakko Hintikka - 1996 - Cambridge University Press. This book, written by one of philosophy's pre-eminent logicians, argues that many of the basic assumptions common to logic, philosophy of mathematics and metaphysics are in need of change. It is therefore a book of critical importance to logical theory.

Jaakko Hintikka started in 1969 the study of the logic of perception as a spe- cial case of his more general approach to propositional attitudes by means of the possible worlds semantics. His students and co-workers extended this study to the logic of memory and imagination. The key elements of this approach are the distinction between physical and perspectival cross-identification and the ...

Perception, memory, and imagination as propositional ...

Ideal language philosophy is contrasted with ordinary language philosophy.From about 1910 to 1930, analytic philosophers like Bertrand Russell and Ludwig Wittgenstein emphasized creating an ideal language for philosophical analysis, which would be free from the ambiguities of ordinary language that, in their opinion, often made philosophy invalid. . During this phase, Russell and Wittgenstein ...
